

PLEASE do NOT adopt any rules or regulations that would lessen the impact of the Indiana Telephone Privacy law. I signed up July 1, 2002 and the telephone solicitations have decreased by 75%. In addition, when I do receive the errant call, I simply tell them that I am on the do not call list and am never bothered again. It is wonderful! With aging parents nearby, I do not want my phone lines cluttered with people trying to sell me things I desperately don't want. What has been done in Indiana is working for the residents here. PLEASE don't do anything to jeopardize what our legislators have worked so hard to put in place. It truly is working for us! Thank you!
